# pharmaceutical logistics

## sensitive goods – safe transport

Particularly in the medical sector, there are special requirements for transport. You can reach our competent contacts around the clock, who can respond quickly

to your requests. Our trained driving staff offers you a careful and qualified handling and even a personal delivery of your shipment.

## temperature stable and monitored

Samples, pharmaceuticals, low-level radioactive pharmaceuticals, equipment, medical materials and sensitive measuring instruments – much of it should be monitored from the cockpit and transported at temperature

stability on its way to its destination. Thanks to our qualifications and our modern vehicle fleet, we are able to guarantee these special features.

Regional as well as nationwide clinics, medical practices and environmental agencies have been our satisfied customers for many years. They trust us because of our:

- speed
- reliability
- flexibility
- careful handling of the consignment,
- Accessibility 24 / 7
- competent contact person, trained drivers
- short response time
- Personal delivery

# waste transports

## our qualification / authorisation

- o transport of non-hazardous and hazardous waste according to German Closed Substance Cycle and Waste Management Act (KrWG) with vehicles up to a total weight of 7,5 t
- o monitoring of and compliance with the provisions on the transport of waste
- o trained and qualified driving personnel, equipped and modern vehicles
- o transport number of Chemnitz according to § 28 German certification code: S11TA0022
- o We will be pleased to advise you in detail: Andreas Harnisch is your contact person.

## our vehicle fleet

- o GPS-monitored vehicles
- o modern, well-maintained vehicles

## our service

provision of a vehicle within 60 to 90 minutes,  
exclusively for your order

directly from A to B, no additional load, no reloading,  
in the fastest possible way, nationwide

seamless shipment tracking, status messages via e-mail

we are at your service around the clock: 24 / 7 available

# transport of dangerous product

We are there for you and take care of your dangerous goods of various kinds. Our trained and qualified drivers pick up goods directly from you and transport them safely to their destination with the suitably equipped and tested vehicles.

## what we can transport

**transport of dangerous goods without marking**

without exceeding the allowances referred to in point 1. 1. 3. 6 of the ADR (1000 point rule)

transport of limited (LQ) and exempted (EQ) Quantities

**transport of dangerous goods subject to labelling other than class 1**

dangerous goods of classes:  
2 / 3 / 4.1 / 4.2 / 4.3 / 5.1 / 5.2  
6.1 / 6.2 / 8 / 9

**radioactive substances; ADR class 7 with national transport authorisation**

other radioactive substances up to 109 times of the free limit

enclosed and non-excluded substances

Packaging of the Types A, IP-1, IP-2, IP-3

The transport takes place in parcels by direct route without intermediate storage.

**Compliance with all ADR regulations, as well as additional national regulations, is monitored on an ongoing basis.**

## for this we need

- o specific information on the number, dimensions and weights of packages
- o correct identification of packages with UN number, packing group (if available) and class
- o in case of transport of radioactive materials, please consult with our dispatch. We are happy to advise you in detail:  
Andreas Harnisch is your contact person.

# hauling of air freight

The flows of goods become increasingly globalised. The international security situation for shipping of air freight, leads to increasingly strict regulations. In order to ensure the security of the national and international supply chain, each individual stage of the chain must be evaluated as secure.

**We take responsibility for the express transport of secure air freight from your customer to the airport.**

## our service

- o provision of a vehicle within 60 to 90 minutes, exclusively for your order
- o directly from A to B, no additional load, no reloading, in the fastest possible way, nationwide
- o seamless shipment tracking, status messages via e-mail
- o we are at your service around the clock

## our vehicle fleet

- o GPS-monitored, modern, well-maintained vehicles
- o vehicles can be sealed

## aviation security

- o listed as approved transporter:  
**registration no.: DE/H/01517-01**
- o Compliance with all legal regulations, regular audits (internal and by german LBA)
- o trained dispatching and driving team

car

van

truck

trailer truck
